EcoStudio
Optional Extras

Our Professional EcoStudio Installers can fit a treated Timber Base in which your new Garden Room can sit on. The base will be concreted into place and will last the lifetime of the EcoStudio!

The Modular Building means that you can install a side door on either side of your EcoStudio to suit your decking or paving. We can also create internal walls and fit windows and French doors to suit the surrounding views if required.

We can supply and fit Internal and External lighting. We can also fit plug sockets and any electrics to suit your need.

Our Installers can guide you through the process of creating your perfect garden room. We can paint internally and externally in your choice of colours to suit your surroundings.
